

Here is what our Client's say about our SERVICE!

I could tell you all the reasons you need my services but I believe my client testimonials below speak louder than anything I could say!

WWW.DGAUDIOREPAIR.COM – Duane Garvin Owner

For the past 2 ½ years you have made sure that my company has been listed in the number one position on the top three major search engines (Google, Yahoo, and MSN). As a result of being in the number one position my business has experienced steady and sustained growth each year. We are now receiving repair work shipped to us from Europe! **Google, Yahoo and MSN North American Search** – “*kurzweil digital repair.*” (Updated April 2007)

WWW.CSC-SERVICE.COM – Glen Disbrow – Owner

For the past 9 years our website could not be found on any major search engine and after just 1 day we became number 3 on Yahoo and MSN, and after three days or so we were #1 in several different search categories. I recommend your services to any company who wants to get top 5 search engine rankings. **Yahoo and MSN local demographic search** – “*computer managed services, seattle wa / computer cabling fiber optic, seattle wa*”(New April 2007)

WWW.WASHINGTONAIKI.ORG – Jim Eggleston Co-Founder

Many thanks to you and your company for the outstanding job you have done on our website and online search engine exposure. I have observed that we are now #1 on every major search engine including Google. We are now getting over 20,000 hits per month and for a local dojo that is remarkable to say the least not to mention the superior design of the site. **Google, Yahoo and MSN local demographic search** – “*aikido, Tacoma Washington / tenshin aikido.*”

WWW.NORTHWESTCPU.COM – Richard Thomas – Owner

I would like to take this opportunity to thank you and your company for the outstanding job you did rebuilding my website. For a year my website was next to impossible to find on any search engine and now only two and half weeks after you deployed my new re-designed website I am usually in the top 5 on all the major search engines. **Google, Yahoo and MSN local demographic search** – “*computers sales and service, Bremerton Washington.*”

More referrals upon request!

NOTE: Currently webs statistics show the children of Baby Boomers are between the ages of 21 and 35 and 90% of them are very computer savvy. 70% of those now look up information and shop online.

What does this mean to you?

It means that if your website is not in the top 10 of at least two of the three major Search Engines you are **LOSING A LOT OF BUSINESS!**
